Virtual Meta-Analysis Course

★ OBJECTIVE

Meta-analysis can address study differences, especially when there are conflicting findings. Meta-analysis can determine, critically evaluate and integrate all the relevant findings in producing high quality articles.

★ CONTENTS

The following topics will be covered:

- ✓ Introduction to Meta-analysis
- ✓ Identifying a research topic
- ✓ Developing a valid research question
- ✓ Literature searches
- ✓ Study selection
- ✓ Combining studies with and without meta-analysis
- ✓ Data analysis
- ✓ Best-evidence synthesis

By the end of the course participants will be able to:

- ✓ Plan and synthesize a basic best-evidence
- ✓ Understand the appropriate methods to synthesize the best-evidence
- ✓ Accurately communicate the results of the best evidence

★ TARGET AUDIENCE

For academics and researchers with a general interest in the methodology of best evidence synthesis and for those planning to conduct a best evidence synthesis in the future.
